

Small mobile development team

2012

Full cycle development agency

Since 2017

- Full cycle development agency since 2017.
- Company's philosophy: **Client Oriented. Personal approach. Agile methodology.**
- Code Inspiration is focused on B2B sphere. Flexible work on 3 models (T&M, Fixed Price, Outstaffing&Dedicated team) as well as combining these models.
- Code Inspiration provides pre-evaluation – a customer always clearly understands budget and timeline.
- Reputation is confirmed by customers' reviews. E.g. Clutch.co listed Code Inspiration as top 6 world best outsourcing partner and top 2 best outsourcing partner in Belarus.

Working process

Agile at Code Inspiration

- We are flexible.
Ready to work within waterfall and canban

- Scrum transparent methodology Jira

Models of Work

Time&Material

- Avoid Fixed Price risks
- Plan tasks for next sprint every 3 weeks
- Payment for man-hours working on the project

Fixed Price

- Budget and timeline is clear at the beginning
- No risk to go over budget
- The client is not required to participate in the development process

Outstaffing and dedicated team

- Recommended for complex projects with long term development process
- Working with the developers, who are deeply engaged into client's concrete software

Possibility to combine all 3 models.

A long-term partner

Being a full-cycle agency we are aimed at long-term cooperation. We are ready to develop a project from scratch as well as undertake further maintenance and support. We offer 3 flexible SLAs:

Package 1

Basic support.

Package 2

Support with updevelopment.

Package 3

Support reaction within
24 hours.

Being fully responsible for the quality of our services,
we offer 1 month of free maintenance after project's completion.
